## RARE SPECIMENS FROM THE DEPTHS OF AFRICA

Back from the Congo country in darkest Africa, F. M. Rapp has interesting tales to relate regarding this land of mystery. He spent 28 months in a region where few white men have ever penetrated, not far from the spot where Stanley found Livingstone. The company for which he works was founded by King Leopold II and John D. Ryan of New York. It employed hundreds of natives.

Mr. Rapp collected rare ethnological specimens, including many human skulls. On his return to America he presented a portion of the collection to his alma mater, the Case School of Applied Science at Cleveland, and the balance to the Smithsonian Institute. Mr. Rapp will again make Tonopah his home, where he will engage in mine and mill work. He was a passenger for Millers this morning.

## TONOPAH RESIDENTS ARE MARRIED IN RENO

(Reno Journal, October 1)  
A pretty romance was culminated in Reno yesterday when Mrs. Ruby B. Pohl of Los Angeles became the bride of Robert G. Van Patten, a mining man of Bisbee, Ariz.

The couple were members of an automobile party en route from southern California to Aberdeen, Wash., and when the contracting parties reached Reno they decided to marry. The ceremony was performed by Rev. W. D. Trout of the Congregational parsonage yesterday afternoon at 3 o'clock.

Mrs. Rose Campbell and daughter, Vera, who were also members of the auto party, acted as witnesses to the marriage. After the wedding the party proceeded on their journey to Washington.

The newlyweds were former residents of Tonopah, residing in the southern camp for many years.

## REPUBLICAN RALLY HELD TOMORROW

Everybody is anxiously waiting for the arrival of the state Republican candidates, who hold a big meeting in Mina tonight and are expected to arrive in Tonopah tomorrow for lunch. (Barney) Moran, candidate for judge of the state supreme court, and Hon. R. A. McKay, candidate for clerk of the state supreme court. The party is traveling in autos and should leave Mina about 7 a. m., arriving in Tonopah about 10 o'clock. In the afternoon at 4 o'clock a big rally for the women voters will be held in the new Republican headquarters in the Richards building and all ladies are cordially invited to be present and hear the woman suffrage question discussed by Hon. Sam Platt, one of the most eloquent and forceful speakers in the west. Hon. E. E. Roberts, who has just returned from Washington, being present at the last session of congress, will also address the ladies upon subjects in which they are vitally interested.

## MANHATTAN CLUB LANDS THE PLUM

Under the captainship of Captain Percy Nash, the Manhattan National Rifle club, 15 members in all, will leave Saturday for Jacksonville, Fla., to compete in the national rifle shoot, to be held under the auspices of the government from the 14th to the 19th of this month. There will also be revolver matches held.

Hitherto there has never been an appropriation for a civilian rifle club at these tournaments, which have been confined to the regular army and state troops. The Manhattan rifle club has the highest score of any team in the state. The state appropriation for the trip is \$2337.52, which pays transportation and Pullman fares. They will be given tents, coats and camp equipment at Jacksonville. The governor considered the appointment for some weeks and made the selection on account of the excellent marksmanship of the pine tree boys.

## Better lighted windows sell more goods

At no increased cost for current you can make your show windows just twice as bright as they now are. And without the glare which hurts people's eyes and really drives them away.

## X-RAY REFLECTORS

The Show Window Searchlights

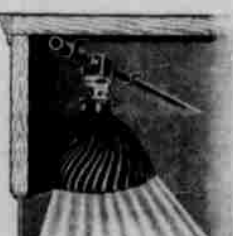

are the most powerful reflectors made and they last indefinitely. They hide the glaring lamp, and on account of their scientific design, concentrate all the light on the merchandise on display. None is wasted on the ceiling or sides of the window nor on the sidewalk.

These reflectors are the standard for window lighting. Marshall Field & Co., Chicago, used 1500 X-RAY Reflectors constantly for thirteen years and when a few of these were tested by distinguished engineers in Cleveland it was found they had not lost one per cent in reflecting efficiency. X-RAY Reflectors are the only pure silver plated reflectors which last indefinitely.

## Free Demonstration

We'll show you X-RAY lighting any evening you say in your own windows. Nothing will convince you more quickly of its wonderful superiority. It is a necessity to any merchant. Phone us. Ask for booklet, "Show Window Searchlights."
